

We are absolutely opposed to the CBA imposing the "established business relationship" rule. It has actually been peaceful, for the first time since I was a child, when we signed the "no call list". What an invasion of our precious time, personal (family and professional) to answer multiple calls throughout the day/night. If i want solicited, I have the ability and multiple resources to look for these myself. In this day there is to little time for peace and relaxation for most Americans, please allow us to come into our own homes and not be violated by these telemarketing calls.
